Functional Foods for Wellness Summit 2025|Bangkok

The Morinaga Milk Industry Group participated in the Functional Foods for Wellness Summit 2025, which was held in Bangkok, Thailand from January 15th to 16th.

At the Functional Foods for Wellness Summit, about 120 experts, representatives of industry groups, and business people from countries such as China, Japan, Thailand, Vietnam, South Korea, Singapore, and India gathered to attend this international industry event.

Morinaga Milk Industry was the gold sponsor of this event, and on the first day, the opening address was delivered by President Endo of MNF-AP. On the second day, during the company presentations, research on Human-Residential Bifidobacterium (HRB), a beneficial bacterium that lives in the human intestines, and functional studies using HRB probiotics for infants, adults, and the elderly were introduced.

At the awards ceremony, which recognizes outstanding achievements in the field of functional foods, our *Bifidobacterium breve* B-3 received the Annual Material Award in the Weight Management category, and LAC-Shield received the Annual Material Award in the Immune Function category.

(*Bifidobacterium breve* B-3 and LAC-Shield each received the Annual Ingredient Award in the Weight Management and Immune Function categories, respectively.)
